VERTO MESSAGING SUITE
(A2P MESSAGING)
An enterprise-grade messaging software

WHAT IS VERTO MESSAGING SUITE

Enjoy the following features:

- **High-volume messaging**
- **Broadcasting**
- **Viber Promotion**
- **Customized Sender ID**
- **OTP Messaging**
- **PIN Login Verification**
- **Improved Customer Engagement**
- **Competitive Pricing**

Verto Messaging Suite leverages messaging software designed to deliver high throughput and can be easily configured across multiple locations to achieve high availability. This software has integrated Billing and Routing modules and supports multiple upstream Gateway connections over SMPP and http.

HIGHLIGHTED FEATURES

Customized Sender ID

Having a customized sender ID helps your organization get recognized easily as a legitimate company and avoid being blocked or marked as SPAM.

SMS Blasting

Save more time and resources by broadcasting your SMS. This one-way messaging is helpful in sending messages to your leads or your contact list.

Monitoring and Reporting

Reports and dashboards are great way to check if you are hitting your goals. This way, you can check your message volume, message trace, view your errors and audit logs.
